

# CIRCULATION INITIATIVE

Since launching our hugely successful 'interactive' version of Commercial Property Monthly, our hard copy and digital audience of 32,000 partners; negotiators, surveyors, developers, estate agents, estate managers, local/regional councils and property managers has seen a substantial increase; with the publishers investing in a new business to business database provided by Merrehill Marketing, who conform to the stringent DMA, ICO and IDM marketing regulations.

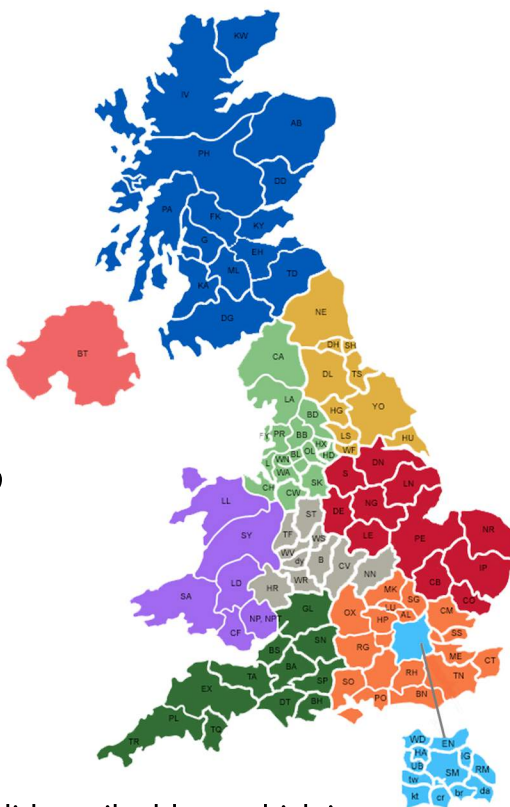

On our behalf our new partners ensure each issue is distributed twice; an initial broadcast, then a follow up circulation to their industry targeted database of 780,000 UK wide individuals and companies. Principally to: MDs, Owners, CEOs, Directors, Chairmen, Occupiers or Company Secretaries within our industry; whose companies may be looking to relocate, expand, downsize, open a satellite/starter facility or simply invest.
